Majors

Business-Sociology (B.S.) Innovation and Entrepreneurship (B.S.) Public Health (B.S.) Sociology (B.A., B.S.)

Minors

Environmental Studies Family Studies International Policy Public Health Sociology

Departments/Programs:

Sociology

This course examines the demographic and social dynamics of population size, composition, and distribution. It addresses the relationships among population, human health, development and the environment. Strong cross-cultural emphasis. A major focus is the development of a semester research paper contrasting the status of the Millennium and Sustainable Development Goals, environmental status, and health in a more- and less- developed country.
