

Course:

SOCWK 5010 Human Behavior In Social Environment

3 hours

Departments/Programs:

Social Work (Graduate)

In this generalist course, students will synthesize and examine social work theories, concepts and values. Students will learn the Generalist Intervention Model for social work practice and apply that to the individual, group, family, organizational and community systems. Content will be drawn from the biological, psychological, sociological, ecological, and cultural environmental systems to assess client needs and strengths.
