Nebraska Wesleyan University

THTRE 2350 Introduction to Voice Over Acting

Catalog

2025-2026

Course Description

This is a practical application course that examines the expressive possibilities of the human voice. Students will explore range, pitch, tempo, color, rhythm, and other qualities related to voice acting and broadcasting. Students will also learn about the equipment and software needed to record, edit, and produce various projects associated with voice acting.
