Nebraska Wesleyan University

BUSAD 5700 Information Governance, Risk Management, and Compliance

Catalog

2025-2026

Course Description

Companies storing information are responsible for keeping it safe-and face consequences if they don't. Who's at fault after an attack and who must be informed? This course covers corporate governance principles, risk identification methods, business regulations, accountability, and audits. In a data-driven world, business leaders must handle data responsibly, and by the end of this course, you'll learn how to manage the growing legal obligations around cybersecurity.

Course Hours

3 hours
