Nebraska Wesleyan University

BUSAD 5750 Capital Markets and Investing

Catalog

2025-2026

Course Description

Investing involves risk-but this course teaches you how to manage that risk and make the right decisions to build and protect your wealth. What portfolio decisions are safer? How can companies thrive by balancing debt and equity? How can options mitigate risk? By the end, you'll have the financial acumen to make informed investment decisions, optimize portfolio performance, and master strategies for risk management, capital allocation, and sustainable financial growth.
