Nebraska Wesleyan University

CYBER 3400 Ethical Hacking

Catalog

2025-2026

Course Description

To stop a hacker, you need to be able to think like a hacker. In this course, you will learn hands-on techniques for attacking and penetrating networks and systems. You'll learn the tools to launch these offensive tactics and then complete a hands-on project where you will be asked to ethically hack a real system. Prerequisite: CYBER-2400

Course Hours

3 hours

Departments

1. Business, Accounting and Economics (Undergraduate)
