Ensembles

Music Education majors must participate in a primary large ensemble (see list below) each semester in residence. Music majors seeking a Bachelor of Arts degree must participate in six semesters of a large ensemble . Assignment to a specific ensemble is made by the Director of Choral Activities for choral ensembles or the Director of Instrumental Studies for instrumental ensembles, in consultation with the Program Director. Participation in two ensembles may be required, according to the student's educational plan. Any variation from these policies must be approved by the Program Director.

Students participating in any ensemble must register for the courses. Courses may be repeated. Music Education majors must register for their primary ensemble for 1 credit. Students who are pursuing a Bachelor of Arts in Music may register for their primary ensemble for either 0 or 1 credit. Non-music majors may register for ensembles for either 0 or 1 credit as applicable (not all ensembles have the 0 or 1 credit option.) Ensembles may not be taken Pass/Fail.

Recital Attendance

Experiencing a variety of live music is a vital part of one's education as a musician. Music majors must enroll in and pass MUSIC 1000 Recitals, every semester they are enrolled in an applied lesson for their primary instrument (including voice). Details about MUSIC 1000 can be found in the Music Major Handbook.

Recitals and Concerts

Candidates for the Bachelor of Music degree with a major in Music Education are required to perform a partial or full recital in the senior year in addition to successful completion of student teaching. Bachelor of Arts candidates are required to present a partial or full recital in the senior year. With permission of the music faculty, Bachelor of Arts candidates may substitute a senior research project for the senior recital. Students must enroll in the appropriate applied music course for their major every semester until their senior recital requirement is completed. Permission for any student recital must be received from the music office and is contingent upon a satisfactory hearing by the recital jury committee. In addition to formal concerts and recitals by student soloists and university ensembles, the department presents opera and opera workshop performances, department student recitals, and faculty solo and chamber music concerts.

Techniques Courses

Music Education majors must take and pass techniques courses in the areas listed with the requirements for each major emphasis. Students may request to demonstrate proficiency in a techniques course by passing an examination with the appropriate area faculty, in consultation with the Program Director. All techniques courses must be completed before enrolling in student teaching. Any exceptions to these policies must be approved by the Program Director.

Student Teaching Prerequisites

Before enrolling in student teaching, all Music Education students must have successfully completed the appropriate method and technique courses in their degree program. Music education students must also complete 100 hours of field experience and be accepted into the Teacher Education Program (TEP).

Applied Music

The term "applied music" refers to private instruction in any instrument (including voice). Primary consideration is given to the principles of performance and literature of that instrument. All music majors, regardless of the degree program, must designate a major instrument. Applied music may not be taken Pass/Fail. Music Education students must carry 2 credit hours (60 minutes of instruction per week) in their major instrument for every semester in residence. Any exceptions must be approved by the music program director. Bachelor of Arts students must complete a minimum of 6 credit hours of applied instruction for their degree.

Credit: Credit for applied music instruction is given as follows:

- 2 credit hours (major instrument only), for 60 minutes of instruction per week. A minimum of three hours daily practice and participation in department recitals are required.
- 1 credit hour (secondary instrument or non-music majors) for 30 minutes of instruction per week. Two hours daily practice is required.

Registration: Students may register for one of four levels in applied music courses, numbered as follows:

- 1200-1380: All first-year students or any other students registering for the first or second semester of an instrument, except by permission of the Program Director.
- 2200-2380: Any student registering for the third or fourth semester of an instrument.
- 3200-3380: Any student registering for the fifth or sixth semester of an instrument.
- 4200-4380: Any student registering for the seventh or eighth semester of an instrument.

MUSIC 1140 Cover Band/Rock Band

3 hours

In this Creative and Performing Arts Elective course that is situated within the Chaos Thread, students will develop skills necessary to learn how to play an instrument or sing, and to create their own arrangements and compositions within small student-led groups. This course is designed for students with little to no formal musical training to learn how to create their own music using informal music learning methods – methods that are not always acknowledged as having merit both in process and in genre, especially within the area of academic music. The teacher will act as a facilitator of space and at times a coach, mentor, or apprentice as appropriate so that students drive the learning and the creating of their own music to the end of performing and/or recording it. The assigned readings, class discussion, and students' musical creations will focus on the radical differences between the formal music learning practices done in classrooms and the informal music learning practices used by many musicians outside of the formal classroom setting. There are no prerequisites to take this course. Students will be learning to play instruments and using electronic software; students can use their own instruments and electronics as appropriate to the course projects, but materials will be provided as needed.
(Normally offered each spring semester.)

There are no prerequisites to take this course. Materials will be provided as needed.

MUSIC 1160 Composing for Film and Video Game

3 hours

This Creative and Performing Arts Elective course introduces students to the process of composing music for visula media. Students will view, analyze, and discuss scenes from multiple films and video games in order to identify features of a scene's character. They will then use these characteristics as the basis for creating supportive musical expression in their own composition. Students will be introduced to the process of synchronizing music to picture, develop rudimentary creative and technical skills in editing audio, and explore ways to compose music using digital audio technology. There are no prerequisites to take this course. While formal musical training can be helpful, this course is designed to accommodate students with minimal musical experience. Students will learn to manipulate already formed samples and loops that accompany Digital Audio Workstation (DAW) software, while also learning how to mix these sounds with music they create using Midi instruments and audio files.
