

Course:

CYBER 2200 Career Nav & Exploratr In Cybersecurity

3 hours

Majors, Minors & Degrees:

Majors

Cybersecurity (B.A., B.S.)

Departments/Programs:

Business, Accounting and Economics (Undergraduate)

This course will help you find a job in Cybersecurity upon graduation. Not just any job; one that meets your personal and financial needs and makes you excited about the future. In this course, you'll explore career paths in Cybersecurity, potential salary outcomes, and different roles. Then, you'll pick target jobs and opportunities that are the best fit for you and make a clear plan of action toward securing them.
